FISHING WORLD GUIDELINE (MASTER)

Table of Contents

1. Master edits Agent 1
   1.1. Single Edit 1
   1.2. Multiple Edit 3
2. Master edits Member 5
   2.1. Single Edit 5
   2.2. Multiple Edit 7

The guideline below will help you get familiar with editing settings of your downlines.

Notes:

- Update Maximum Loss of upline
  - Downline Maximum Loss value > upline Maximum Loss value, automatically update:
    - Downline Maximum Loss value = upline Maximum Loss value
    - Downline max of the range = upline Maximum Loss value
  - Otherwise, no change is needed.
- In multiple edit popup:
  - The default settings are the settings of the account located on top of the selected list.
  - All settings displayed on the popup will be updated to selected accounts regardless of whether or not change is made.

1. Master edits Agent

1.1. Single Edit

- Search an Agent account by using **ACCOUNT INFO**.

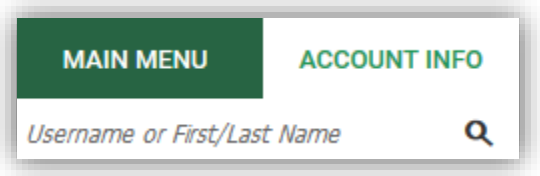

Figure 1.1.1. Account Info

- Click '**Fishing World**' on Setting tab to open the setting page.

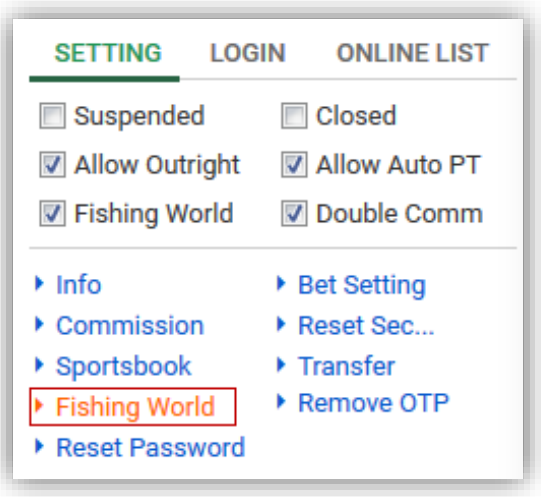

Figure 1.1.2. Setting Tab
